

Esk Class News

Week beginning 13.11.23

We have had another busy week! Our Christmas play rehearsals are well under way! We have been blown away by the children's singing!

Learning Means the World

We have been introduced to Newton who is a scientist. We have been investigating how the size, shape and materials of objects determine whether they float or sink. As scientists, we have performed a range of investigations. We also made predictions and discussed our findings.

Maths

Maths has been challenging this week! We have been using inverse operations and estimation to check calculations using 3-digit numbers.

Reading

In our guided reading lessons this week we have been thinking about fairytales. We looked carefully at the images in the story and spotted lots of fairytale references such as a red cloak, a beanstalk, the cottage in the woods and the Big Bad Wolf.

Writing

In English we created our own versions of Cinderella. We changed the setting and made a new 'back story'.

PE

On Wednesday we had our first hockey lesson. Miss Lee was very impressed with the children's skills! In our dance lessons, we performed a dance to show two contrasting characters from Matilda – Mr Wormwood and Miss Honey.

RE

We have been learning about the layout of the Bible and why it is important to Christians. We then created our own 6-line poems about what God is like.

Our theme is Collective worship is Anti-Bullying.
