

Swale Class News

Week 11.03.24

Swale: We have been focusing on developing a Growth Mindset across all our lessons.

Learning Means the World

Last week we have had a Saxon Day. A visitor from Murton Park, York came to visit us and tell us all about the Saxon way of life. We had lots of exciting sessions and had opportunity to handle some original artefacts.

World Book Day

We celebrated World Book Day by dressing up as our favourite characters from books we have read. In class, we created our own hero and villain characters. We also had a book swap and a Book Cafe where we were able to share our love of reading.

Science Day

To launch Science Week we had a Science Day. Swale were investigating the problem of litter and plastic pollution in our school environment. We conducted a survey, in the school grounds, to find out how much litter there was. We created a tally chart of the types of litter there were and where we thought it may have come from and then created an action plan to help solve the problem.

Our theme in Collective worship is reflection as part of our Rhythm of Life Lent Journey.
