

# Ribble Class News

Week - 11.3.2024

We had such a fabulous week, last week with two exciting events in school: World Book Day and Science Day.

## World Book Day

We had a fantastic World Book Day with lots of fun activities linked to books - we even got a mention on the BBC website during their live lesson! Everyone had the chance to participate in the book swap and choose a new book to enjoy - there were lots of exciting books to choose from! In class, we made our own book covers and stories for a new book when given the blurb. We also took part in the BBC live lesson and completed the activities about our favourite books and different genres.

In the afternoon, children loved being able to visit the book café and it was great that so many of you were able to join us for this lovely event!

## Science Day

We all enjoyed Science Day, especially working together to plan and carry out our own investigation into the best materials for keeping a cup of coffee warm.

I was really impressed with the care and focus the children the children displayed and with how keen they were to ensure that our test was fair.

We were also fascinated by the question posed by Mrs Gomes and Mrs Lonsdale regarding how gummy bears would react when placed in different solutions.

Our theme in Collective worship is Lent.
