

Swale Class News

Week 06.05.24

Swale class focus: Presentation

Learning Means the World

We have been enjoying our new Learning Means the World unit on Conservation – Picture out Planet. So far, we have been learning about Brazil and Scotland. We have been finding out about the different human and physical features in each country and thinking about how similar and different their climates are.

Maths

We have just finished our unit on decimals, and we have been using that learning to help us in our new unit on Money. We have been thinking about how many pence there are in a pound and the different ways we can make a pound using different coins.

Guided Reading

We are on the final chapter of *Daughter* by Philip Pullman and we are very excited to see how the book will end.

Writing

The poetry book *Poetry Pie* has provided some fantastic ideas to start creating our own poetry. We have been thinking about poems that 'bite' and poems that make us 'chuckle' as well as the rhythm and rhyme that can be found in poetry.

RE

Our focus has been about the Holy Spirit in Christianity and thinking about the fruits of the spirit discussed in Galatians 5:22-23 and how they can help Christians live a Christian life.

Reminders: Please could children come in wearing PE kit on Monday, Tuesday and Thursday next week as we will be doing some additional outside activities. Please could we remind children to always wear correct PE kit.

Our theme in Collective Worship is Peace
