

Wensley Class News

Week - 6.05.24

We have had a wonderful few weeks in school and the sunshine and warm weather have been a real treat!

What have we been learning about this week?

Learning Means the World

We have begun a new topic this week called Global Warning. We have started looking at pollution and how it affects the world around us. Nurdles have been the subject of our work and how they are so damaging to our rivers seas and wildlife. If you are not sure what a nurdle is then please ask your child - they will be able to tell you all about them. We are looking forward to our fieldwork trip around Ripon looking at the effects of pollution right on our doorstep.

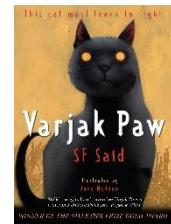

Maths

Our Maths learning has focussed on angles this week and I have been very impressed with how the children have been able to use a protractor accurately. This is not an easy skill but they have been determined and have shown lots of great skill.

Reading

We have been continuing our Guided reading topic on the book 'Journey to the River Sea'. We have been looking carefully at character and how the writer gives us clues as to how the character might behave. In our English topic on 'Varjak Paw' we have learning about the Ancient place called Mesopotamia and what life there was like. We look forward to learning more about the adventure of the ninja cat!

PE

This half term's units are tennis and football. With Mr Banks the children have been refining their backhand technique using two hands for extra power and control. As usual the children have shown wonderful team work and skill.

EARTH DAY

We had a lovely time trying to improve our environment. We planted some courgette seeds in newspaper pots to save plastic and a very determined group tackled the weeding outside our classroom. We look forward to planting them out and growing our own vegetables.

Our theme is Collective worship is Wisdom
