

Laver Class News

Week 18/12/23

The children have had a busy last week of term and it has been lovely to celebrate as a Year Group with our Christmas Party! We hope you all have a lovely Christmas and look forward to seeing you all in the New Year!

Christmas Party

We had lots of fun, making party hats, playing games, dancing, and decorating biscuits to enjoy! Stick the nose on Rudolf, charades and the Penguin dance were fun! (We even created our own little place mats for our biscuits, so they were ready for when we came back to the classroom to eat them at the end of the party.)

What have we been learning about this week:

Learning Means the World

In 'Learning Means the World' we have been working with our curriculum creature Claude, a scientist, a computer scientist. We were learning about algorithms, creating step by step instructions and learning how these link to programming a beebot.

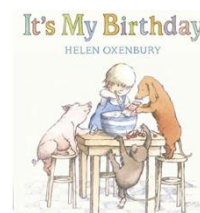

Maths

This week we have started a new Unit, learning about 2d and 3D shapes. We have been looking closely at 3d shapes, learning their names and noticing their features. We have sorted shapes and have been on a shape hunt.

Writing

The children this week have written their own version of **It's my birthday.**

Our theme in Collective worship is Advent.
